

Microsoft SharePoint: *Helping People Work Together*

The SharePoint services that we offer range from setup of the most basic SharePoint sites to strategic assessment and planning, proof of concepts and implementation of value-added portals. With our SharePoint Deployment Planning Services (SDPS), we can work with you to assess your business goals, identify and mitigate project risk, and develop an effective roadmap for implementing a SharePoint solution that meets the needs of your end users. More than 50,000 users have effectively adopted SharePoint solutions that we have deployed.

Suite of Services

At 6th Street Consulting, we specialize in value-driven SharePoint deployments and specifically focus on assisting our clients with the following SharePoint services:

- ▾ **Deployment Planning**
- ▾ **Configuration Optimization**
- ▾ **Custom Development**
- ▾ **Proof of Concept**
- ▾ **Governance and Risk Management**
- ▾ **Brand Alignment**
- ▾ **SharePoint 2010 Migration and Implementation**
- ▾ **Intranet/Extranet Portals**

Answering Your SharePoint Questions

Have you implemented SharePoint but still don't feel that your business requirements are being met?

We will analyze and configure your current deployment to ensure that it supports your mission and surpasses industry benchmarks. With our vast experience and understanding of industry best practices, we can optimize your SharePoint implementation to ensure that it works as effectively as possible for you.

How will you assign roles/responsibilities, manage risk and measure the success of your SharePoint implementation?

All of these issues need to be addressed in your governance plan prior to moving forward with SharePoint. Our consultants can help your organization work through these and many more questions related to people, process, policies and technologies to ensure that your SharePoint implementation has the ongoing support needed to be a success

Have you found that SharePoint isn't as user friendly as you'd like it to be?

Our unique approach includes modifications to the user interface (UI) to provide an intuitive experience that users can easily understand and ultimately adopt. We are extremely experienced in customizing the SharePoint UI and creating reusable templates that make it easy to provide a consistent and streamlined UI for all of users of your portal.

Aligned with your Business

We can transform SharePoint into an intuitive and easy to use interface reflecting your brand and business processes.

Do your SharePoint sites reflect your brand?

Every year, companies spend millions of dollars building their brands. By aligning the functionality and overall appearance of your SharePoint deployment with your brand, your company can more fully realize the benefits of those marketing dollars and improve overall adoption by the end user. We can work with your existing design or assist you with redesigning your sites as needed.

Are you ready for SharePoint 2010?

SharePoint 2010 offers several new enhancements, including improved integration with Microsoft Office, additional platform management tools and increased attention to the user experience and mobility. 6th Street Consulting can assist your organization in implementing or migrating to this new platform. With our experience and associations with the Microsoft partner organization and user groups, our consultants can offer advanced expertise and access to cutting-edge resources in deploying this new technology.

Our Investment in You

6th Street Consulting is committed to our clients and we have made significant, strategic investments in ensuring that our consultants can provide the highest level of SharePoint expertise.

We continually focus on client satisfaction.

6th Street Consulting has outstanding scores on the Microsoft Net Customer Satisfaction Survey (NSAT), with a 90% overall customer satisfaction score and 96% of clients saying that they are satisfied and likely to recommend 6SC.

We are dedicated SharePoint professionals with significant knowledge, experience and certifications. Not only are we a Microsoft Gold Certified Partner, our consultants are Microsoft SharePoint Deployment Planning Services (SDPS) Certified. This enables our consultants access to advanced training, tools and support to help our customers deploy or upgrade SharePoint.

We are leaders in the SharePoint and Partner Community. 6th Street Consulting is committed to supporting this technology and our clients. We belong to the Governing Board of the Southern California SharePoint Users Group (SPUG) as well as serving as the Vice-President of the Southern California Chapter of the International Association of Microsoft Certified Partners Group. These affiliations allow us to proactively work with the SharePoint community on the migration to SharePoint 2010.

About 6th STREET CONSULTING

6th STREET CONSULTING was formed in 2002 as a boutique management consulting firm specializing in finance, marketing and technology. We specialize in providing integrated and timely creative solutions for companies, brands and organizations that face changing market conditions and new opportunities. Companies such as the Department of Defense, Northrop Grumman, Siemens, Samsung and Westinghouse Digital have found us to be an intuitive partner with a proven model for creating leverage amidst change.
