

Los Angeles, CA area .NET Developer

Company Description:

6th Street Consulting is an IT consulting company based in Redondo Beach that provides a casual and encouraging work environment for its employees. Our office is adjacent to the Pacific Ocean and our employees enjoy relaxing, oceanfront views from their desks. Employees are regularly recognized for their contributions to the company, and are encouraged to learn new technologies through external training and internal mentoring.

We are a leading strategy and technology consulting company providing expert SharePoint solutions. More than 50,000 users have effectively adopted SharePoint solutions that we have deployed. Although we target small to mid-sized companies, we have also achieved success with large clients such as the Department of Defense, Siemens, Kyocera, Northrop Grumman Corp., etc.

Job Description:

We are currently seeking individuals to work closely with our clients in developing .NET solutions, most of which will support Microsoft SharePoint solutions. This position requires the ability to work well as part of a team.

Professional Qualifications:

Required:

- Strong written and oral communication skills
- Must be able to work effectively as a member of a team and in a matrix reporting environment
- Ability to organize, disseminate information efficiently, and set expectations
- Ability to multi-task and work with cross-functional teams in a very fast-paced environment
- Strong time management skills.
- Independently handle multiple tasks
- Must be self-confident, assertive, and self-motivated.

Technical Skill Qualifications:

Required:

- 3+ years of experience as a Microsoft .NET developer primarily with C#
- Comfortable in Visual Studio 2008/2010 and other Microsoft tools and applications
- Extensive experience with development of web based applications using .NET, C#, ADO.NET, ASP.NET, AJAX, JQuery and XSLT
- Broad experience with .NET framework to include .NET 2, 3, 3.5 and 4
- Experience consulting with clients on the design and business value of portal solutions
- Experience with large-scale applications in a leadership role

Helpful:

- Four-year college degree and consulting background preferred
- Experience in SharePoint development and implementation (experience primarily focused on the creation of custom web parts)
- MCSE 200x preferred

- Experience in database management and programming - SQL Server 2005 & 2008, TSQL, SQL Reporting Services
- Experience using Microsoft Team Foundation Server

Hours/Wage:

- This is a contract to hire position
- Compensation will be commensurate with experience
- Both full and part time opportunities available
- Benefits and vacation time available

How to Apply:

Please fax or E-mail your resume including a cover letter in order to become a part of our great team. Submissions without a cover letter will not be considered. Thanks for your interest, and we look forward to hearing from you!
